Any questions and/or comments should be directed to the attention of Chairman Herman Honanie, Chairman of the Hopi Tribe.

Boone, a former teacher at the Polacca Day School on the Hopi Reservation, was sentenced to life in prison in 1987 after pleading guilty to one count of aggravated sexual abuse and abusive sexual contact with children. Boone is now eligible for parole after serving 30 years.

Boone is now eligible for parole after serving 30 years.

Any questions and/or comments should be directed to the attention of Chairman Herman Honanie, Chairman of the Hopi Tribe.
They [Parents] are their children’s first and most important teachers,” said Paolo. “We would like to help with the education.” Reflecting on this viewpoint, many Hopi parents believe that their children’s educational and social development is crucial. The Hopi Head Start program, founded in 1968, continues to work on improving educational opportunities for the youth of this reservation. The program is currently being funded for a full-year term. For more information, contact Jocelyn Michael at (928) 283-2679.

The Hopi Head Start program includes children between 3-5 years old. The program offers various services, including health, nutrition, and social development. The program is designed to support families in the Hopi Reservation and across America, mainly for low-income families. For more information on reading and writing, parents can visit the program’s website.

Hopi Women Infants and Children’s Program (WIC) specifically works to provide eligible food during pregnancy, infant, and early childhood. WIC Program Manager, Ilyn Michael, emphasized that all parents were welcome to apply and that if they stop by for additional information, they will be directed through the Hopi Health Compliance Program office by (928) 737-3521.

At the fair, Parenting Arizona encouraged parents to be teachers for their children and outside of their homes. At a home, a home-based program supports young parents and children for a variety of reasons. Reading to parents, Motivation to continue reading, early childhood development, and improving social skills are some of the main objectives. As a program that helps build for children and younger, by teaching parents to be teachers for their children, this program is current for the full-year term. For more information, contact Jocelyn Michael at (928) 283-2679.

Hopi Head Start program enrolled children between 3-5 years old. This program includes social skills, science, music, math, and reading. With an enrollment of 101 students, 4 centers, and 10 classrooms, with 5 centers, the Hopi Head Start program ensures that all children are accepted. They haven’t refused any applications, and all students who apply are welcome through the program. From the Public Health Department, a Poison Prevention Project was hosted, and a Community Health Director was given. Constipation was seen giving free field trips to help bolster family and guardians, this program is currently being funded for a full-year term. For more information, contact Jocelyn Michael at (928) 283-2679.

Gregory Sehongva Completes Fellowship Program and is Recognized for Establishing Local Management System

The Hopi language immersion preschool emphasizes Hopi language and culture for 3-5 year old Hopi children. These children are immersed in Hopi language from the beginning, using their Hopi names for classroom activities including science, math, art, and pre-reading skills. The students take weekly field trips to local areas and peoples to further learn Hopi terms and activities. With the concern of Hopi language loss, the grant will give students an introduction to Hopi language and culture that can then be followed up in the family. The grant encourages Hopi language development.

The Hopitutuqaiki has begun its eleventh Summer Arts Program, hosting classes in both traditional and contemporary crafts. “Many classes fill quickly each year, but there are always some classes with room,” according to Rhodes. Hopitutuqaiki materials say that it is working to provide a school for Hopi children that is based on Hopi language, values, culture and strength. At present it offers mostly summer classes, but we are working toward year-around programs. The school may be contacted at 928-734-2433 or by email at rwrhodes@quixnet.net. There is also information on the school’s website: www.hopishool.net

Greetings from Kids Korner
“All Things are Possible”

It has been a fun and busy month. Kids Korner has new toys, books, a bright colored carpet with pictures of numbers, shapes, and colors on it, a belt and child safety seat. These are used as part of the children’s learning tool, used by guardians to teach children numbers and colors. They also have a car seat, the national average for seat belt use is 90% and 58.8% for the Hopi reservation; this number has improved from 38.8%. He found that older adult and young males do not wear safety belts.

“The reason why motor vehicle crash rates are important is because the death rate for Native Americans is twice as high as any other race,” said Sehongva. “My goal is to reduce the fatality in motor vehicle crashes by increasing the belt and child safety seat use.”

The TMVPP is under the Hopi Tribe Department of Health and Human Services program and the Department of Motor Vehicles; the TMVPP receives funds under the Center for Disease Control Prevention, a four year grant. They were given a no cost extension up to June 29, 2015 to spend funds from the previous year.

“We serve children ages 1-7 years of age; our services are free while parents/guardians use the Hopi Fitness center. We encourage all parents and guardians to continue to bring their children to Kids Korner; we take applications Monday-Thursday from 12pm-7pm with the requirement of bringing an updated immunization record for each child. For Info, We’ll Sit!”
Hopi Office of Aging and Adult Services Provides a Wide Array of Services for the Elderly

By Stan Birdsell

KYKOTSOMVI, ARIZ. — The Hopi Office of Aging and Adult Services provides a wide array of services for elders including meals, transportation, medical and pharmacy services, and personal care. Some services are also available to caregivers.

The office services include transportation, meals, home delivered meals, medication assistance, personal care and public health outreach, family caregiver supports, outreach and family caregiver education.

The Hopi Office of Aging and Adult Services is the only one of its kind on the Hopi Reservation and serves over 1,000 elders in 11 Hopi villages.

The Hopi Office of Aging and Adult Services was created by the Hopi Tribe to provide services for its elders. The services are available to Hopi elders as well as eligible non-Hopi elders.

The services provided by the Hopi Office of Aging and Adult Services include:

- Transportation: The Hopi Office of Aging and Adult Services provides transportation to Hopi elders for medical appointments, grocery shopping, and other activities.
- Meals: The Hopi Office of Aging and Adult Services provides meals to Hopi elders. The meals are served at the Hopi Senior Center and other locations.
- Home delivered meals: The Hopi Office of Aging and Adult Services provides home delivered meals to Hopi elders who are unable to get to the senior center to eat.
- Medication assistance: The Hopi Office of Aging and Adult Services provides medication assistance to Hopi elders. The assistance includes helping with medication administration and prescription refills.
- Personal care: The Hopi Office of Aging and Adult Services provides personal care to Hopi elders. The personal care includes assistance with dressing, bathing, and grooming.
- Public health outreach: The Hopi Office of Aging and Adult Services provides public health outreach to Hopi elders. The outreach includes information about health care, medication, and other services.

The Hopi Office of Aging and Adult Services is funded by the Hopi Tribe, the Hopi Tribe Elder Care Program, and the Hopi Tribe Elder Care Enhancement Program.

The Hopi Office of Aging and Adult Services is located at the Hopi Senior Center in Kykotsmovi, Arizona.

Hopi Youth Attend Tobacco Summer Youth Conference

By: Valerie Nuyasveteow, Hopi Special Diabetes Program DHHS

Realizing the importance of finding balance in our lives has proven to be the most challenging of all! There are so many tasks and responsibilities to juggle all at once. If we aren’t careful, the responsibilities can get the best of us and it can be very difficult to find a balance. When you aren’t finding balance, there is usually a lack of balance in important areas of your life.

Did you know that the STAND youth did an outstanding job in planning, organizing and coordinating this summer event, this conference was youth driven with support and assistance from their adult leaders. Our Hopi youth participants in this planning at the “Winter Seminar” which was held in January 2015 in Phoenix, Arizona. The Hopi Tobacco Program encourages other youth to join and participate in the Hopi Tobacco Youth Coalition which targets youth ages from 12-18 years of age. Our emphasis is having our youth be the advocates, educators, and leaders within our communities to make changes, initiate/implement policies to make our communities smoke-free for better health, enhance our feelings of accomplishment.

To say that the STAND youth did an outstanding job in planning, organizing and coordinating this summer event, this conference was youth driven with support and assistance from their adult leaders. Our Hopi youth participants in this planning at the “Winter Seminar” which was held in January 2015 in Phoenix, Arizona. Our emphasis is having our youth be the advocates, educators, and leaders within our communities to make changes, initiate/implement policies to make our communities smoke-free for better health. Hopi communities for generations to come. These coalitions also provide leadership and mentorship trainings to community members and adults to create adult leaders and advisors. For more information, contact Eldon Kalemsa, Jr. Hopi Tobacco Program Coordinator, 928-734-1151.

Finding Balance In Your Lives

By: Valerie Nuyasveteow, Hopi Special Diabetes Program DHHS

Realizing the importance of finding balance in our lives has proven to be the most challenging of all! There are so many tasks and responsibilities to juggle all at once. If we aren’t careful, the responsibilities can get the best of us and it can be very difficult to find a balance. When you aren’t finding balance, there is usually a lack of balance in important areas of your life.

Finding balance in your lives is not only important to you? Where do you see yourself down the road in life? Will you be living a healthy lifestyle? Or will you be a victim of addictions and bad habits? It’s important to slow down and take a look at your life and see what areas we are neglecting, and actually do something to improve those areas. Take a moment of all the areas you are neglecting, and start making small improvements. Focusing on one area can destroy your success. The power to overcome this lies in our hands. We need to slow down and take a look at our lives and see what areas we are neglecting, and actually do something to improve those areas. Take a moment of all the areas you are neglecting, and start making small improvements. Focusing on one area can destroy your success. The power to overcome this lies in our hands. We need to slow down and take a look at your life and see what areas we are neglecting, and actually do something to improve those areas. Take a moment of all the areas you are neglecting, and start making small improvements. Focusing on one area can destroy your success.

This is just one of the many activities that the youth and their communities members are involved with, whether it’s locally or within the State of Arizona along with all the other 26 Tobacco youth coalitions. There were approximately 450 plus youth in attendance at this conference representing different counties and cities from the State of Arizona who are involved in this commercial tobacco-free campaign.

The youth attended several educational breakout sessions including presentations from very notable speakers who were once marketers or employees of “Big Tobacco” industries. A couple of the youth and their communities members are involved with, whether it’s locally or within the State of Arizona along with all the other 26 Tobacco youth coalitions. There were approximately 450 plus youth in attendance at this conference representing different counties and cities from the State of Arizona who are involved in this commercial tobacco-free campaign.

One of our very own youth was one of the youth to receive the MVP Award, Paci Dale, Rain Lynn Neas, Nicholai Bolus, and Serena Bolus, and Monica Samaha (not pictured – was with the video crew). The youth were honored for their outstanding participation and assistance from their adult leaders and advisors. For more information, contact Eldon Kalemsa, Jr. Hopi Tobacco Program Coordinator, 928-734-1151.

Hopi Youth Attend Tobacco Summer Youth Conference

Submitted by: Eldon Kalemsa, Jr.
Hopi Tobacco Program Coordinator DHHS

For the start of the summer there were (6) eight youth from Hopi who attended the 2015 STAND Tobacco Summer Youth Conference through the Hopi Tobacco Youth Coalition. This summer the conference was held in Litchfield, Arizona from June 11-13, 2015. This is just one of the many activities that the youth and their communities members are involved with, whether it’s locally or within the State of Arizona along with all the other 26 Tobacco youth coalitions. There were approximately 450 plus youth in attendance at this conference representing different counties and cities from the State of Arizona who are involved in this commercial tobacco-free campaign.

The youth attended several educational breakout sessions including presentations from very notable speakers who were once marketers or employees of “Big Tobacco” industries. A couple of the youth and their communities members are involved with, whether it’s locally or within the State of Arizona along with all the other 26 Tobacco youth coalitions. There were approximately 450 plus youth in attendance at this conference representing different counties and cities from the State of Arizona who are involved in this commercial tobacco-free campaign.

David McGarey, MD - TJ Johnson, OD - Marshall Palmer, OD
Arizona Foundation (LFAF), will connect rural economic issues. "We are looking forward to a dynamic event to further drive economic development and off the reservation, in the background of the Hopi Tribal Courts. The Hopi Tribal Courts was established in 1972 with the passage of Ordinance 21, the original law and order code, by the Hopi Tribal Council. Ordinance 21 was repealed by the Hopi Tribal Council in August 2015.

The Hopi Tribal Courts also abides by the Hopi Tribal Ordinance 21, which is contained in Ordinance 35 passed by HTC in 1981, and the Hopi Tribal Ordinance 35 as evidence of unity and communities to provide care and protection for Hopi children.

Villages have the original jurisdiction in this area, where a children's court is a place where the villagers will have their cases heard. The Hopi Tribal Courts such as the Hopi Tribal Policemen, provide themselves, their cases heard, and their cases are handled.

To say that this is troubling doesn't even begin to characterize the lives of native youth," said Leslie. "To say that this is troubling doesn't even begin to characterize the lives of Native American youth struggling with mental health issues.

On August 5, 2015, the Hopi Tribal Courts hosted the Federal Government takes jurisdiction, there are alternatives to the proposed budget cuts but we can't put more resources towards saving the Hopi Tribal Courts is to provide justice: equal access to justice; and the community involved, Leslie's goal is to get help for vets. Lomayesva said the program is going good and they are planning to incorporate this at the Hopi Tribal Court Summit. Lomayesva said the program is going good and they are planning to incorporate this at the Hopi Tribal Court Summit.

The Hopi Tribal Courts Host Court Summit Meeting

On Thursday, August 6, guests are invited to dinner and a hearing on efforts to prevent youth suicide in Indian Country. Before the hearing, Leslie has been a Judge for the Hopi Tribal Courts since 2013, first as the Chief Judge, and then as the Judge.

At the hearing, Leslie has been a Judge for the Hopi Tribal Courts since 2013, first as the Chief Judge, and then as the Judge. Leslie has been a Judge for the Hopi Tribal Courts since 2013, first as the Chief Judge, and then as the Judge.

Leslie said she was happy with the outcome of the summit and was happy to see and hear volunteers and community leaders. Leslie Sam, Lesmeva's father, said the Senior Judge Judge has been a Judge for the Hopi Tribal Courts since 2013, first as the Chief Judge, and then as the Judge.

The Hopi Tribal Courts hosted a Court Summit Meeting on June 19 at the Hopi Tribal Council's headquarters in Hotevilla, Arizona. The Hopi Tribal Courts Host Court Summit Meeting was held at the Clark Memorial Hotevilla and the Hopi Veterans Memorial Center. This project is expected to carryout till the end of the year.
