This Month In Hopi History

• Sept. 7, 1906 Split at Oatman

“Opinion” District #6 ruled to be exclusively Hopi, but parts of Oatman Reservation established in 1882 became a Joint Use Area. Hopi lost about 50,000 acres.

MILK delivers bag packs and supplies for children

Crystal Dee Hopi Tutiveni

Making an Investment in Love and Kindness (MILK), a $6,000 non-profit organization based out of Utah, aims to establish a community development through five different programs, Mentors, Native American Outreach Neighborhood, Prayer and a Bear and A.C.E.R.D. Ministries. Through their Native American Outreach program, MILK established relationships with the Hopi Tribe and have brought gifts for Hopi children and donations of bag packs for children. Anthony Gleich, CEO of MILK said he hopes to make this into an annual event.

“We were very well received by the students and I enjoy going to the schools to see the kids; the special education students are very warm,” said Lomahquahu.

“It’s a great experience and we very much the Hopi Chairman Herman G. Honanie said it’s always good to see the kids and to have organizations such as MILK bring gifts for Hopi students to use, especially for educational purposes.

Hopi Tribe Meets with Arizona State Legislators and Congressional Leaders

President of the Hopi Tribe, Mitchell J. Lewter met with Arizona State Legislators and Congressional Leaders.

“26-Bar Ranch is one of the oldest brands in AZ agriculture, and is an exemplary business owned by the Hopi Tribe,” said Honanie.

“The 1996 Land Settlement Act, the United States agreed to the Tribe to assume control over certain lands and to acquire State Land with the State’s concurrence. As a matter of priority, it is in the interest of the Tribe to begin discussion and dialogue to pursue the intent of the Act.”

Economic Development: “Through the Hopi People Coal Mine operations, several important amounts of dollars are generated from these issues and credited by the County, and State. Due to a lack of tax base on Hopi, the Tribe is not able to collect the same tax that other municipalities in the State, ways in which Hopi can also be helped and the resources which can be used for economic or other priority issues.”

Transportation: “State Routes across Hopi are about 200 years old and are used by thousands of commuters, tourists and residents of Navajo and others on a continuing basis.” Maintenance and upkeep to these state roads has been minimal, considering the age of the roadways. If roads cannot be replaced, than a major overhaul is needed. Aged and dilapidating roads can potentially contribute to accidents, hazards, and liabilities.

Education: “While Education on Hopi has been provided by the Federal Government for many years, recent changes has allowed the Tribe to assume control over their schools but has been met with mixed success.” Although Hopi is a public school district, nor does it desire to become one, there is an immediate need for a more responsive and the Tribe wishes to collaborate with the State to help create a stronger and more effective school system on Hopi.

Health Care: “Health care is a major topic in which Hopi can also be afforded and receive services from the Medicaid Program, poses great concerns. Poverty levels on the Reservation are very high, and to a lack of job leads to no chance of self-insurance. This is a great concern and discussions must continue to make appropriate changes or amendments.”

“Many of the reasons for the meeting,” said Lomahquahu. “We were very well received by the students and I enjoy going to the schools to see the kids; the special education students are very warm,” said Lomahquahu.

“It’s a great experience and we very much like it.”

Hopi Chairman Herman Honanie said it’s always good to see the kids and to have organizations such as MILK bring gifts for Hopi students to use, especially for educational purposes.

Polacca has seen changes in the application process. Before the Ranchers had several objections to the application process. This has been addressed, and the process has been streamlined. An Action Item must go before the tribal enrollment committee to be approved. In March 2015, ORM/BOA went before the Hopi Tribal Court, HTC and tribal enrollment committee of the Hopi Tribe to discuss changes. They are voluntary and they are removed from their rights from the Hopi Tribe if they are not approved for enrollment. Meanwhile, the Hopi Tribe has 2 laws that are currently going through the tribal process to be finalized. The Hopi Tribal Court, (Kalemsa vs. Hopi Tribe regarding the Resolution H-140-2014 and Lomakente Hotsi vs. Hopi Tribe, regarding the Hopi-Tutuveni Resolution 1961) is being finalized. So, therefore, at this time, there is no permitting being done. 

In closing, I would like to encourage the Hopi Tribe to keep open about things that are happening at the Council because some of these activities, events, and most of all decisions that may impact your Village, your community, your future of our kids to come. Make your Village representatives accountable to you, your community. Remember, “the Council works for us, not to work for the Council, but it is a tool of government. We need each other and we can work together. Together we can make a difference”.

HEPO’s priority is to adopt Environmental Ordinance.

The EPA has asked HEPO to provide a process for cleaning up illegal dumpsites. HEPO provides a process for cleaning up illegal dumpsites. HEPO uses the UC underground Storage Tank Site Program and under this program they are being asked to take out 18 abandoned storage tanks across the Hopi Reservoi...
There has been an increase of dog bites in the Hopi communities during the last two months, according to CHOC. Parents are concerned about the issue since a few people have been injured in a life and death situation. Milton Poh Clan, a Hopi mom, went to her son’s school with aggressive dogs in the Pedacela area and it is now the first report in the general area where no incident of any kind has occurred. Madeline Sahneyah is the Public Health Compliance Officer and is in charge of the Hopi Tribe Department of Health and Human Services. She is working with a Team to update and finalize the “Small Animal Control Ordinance” to present as soon as possible to the Hopi Tribal Council (HTC). Council approval of the SAC Ordinance will set the groundwork to establish a Small Animal Control Program on Hopi.

The purpose of the Ordinance is to protect

health, safety and general welfare of the Hopi people, work within the framework of the Hopi Tribal Government and tribal and/or the community for the safety, protection or custody of all persons or animals by the public and to control any unreasonable use of or threat to the safety of any person or animal by dog owners, and to establish a reasonable control of domestic animals by their owners, children, elderly, and all residents of the Hopi Reservation and their family members by dog, by injury, by dog and other animals.

The Ordinance was presented to the HTC in March 2015. With the help of the Public Health Compliance Officer, it was presented to the Hopi Tribe Department of Health and Human Services. It was re-written and re-worded and was recently filed. She is working with a Team to update and finalize the “Small Animal Control Ordinance” to present as soon as possible to the Hopi Tribal Council (HTC). Council approval of the SAC Ordinance will set the groundwork to establish a Small Animal Control Program on Hopi.

The purpose of the Ordinance is to protect

George F. Carroll
Environmental Health
Kims Canyon Service Unit

It is estimated that nearly 4.5 million people are bitten by a dog each year in the United States, yet 25% of dog bite victims, half involve children under the age of 12, in a final or resulting in hospitalization. The American Academy of Pediatrics recommends the following precautions for parents to take to prevent dog bites in young children:

- Keep young children away from dangerous dogs.
- Teach children to respect the space of other animals.
- Teach children to avoid "stranger" dogs.
- Teach children to avoid running, yelling, or pulling at a dog.
- Teach children to avoid tempting dogs with food.
- Teach children to avoid surprising dog from behind or from the dog’s side.
- Teach children to avoid teasing the dog.
- Teach children to avoid playing with a dog or dogging around it in a threatening manner.
- Teach children to avoid disturbing a dog who is eating.
- Teach children to avoid picking up, petting, or trying to handle the dog.
- Teach children to avoid tampering with the dog’s food, water, or treats.
- Teach children to avoid mimicking the dog’s behavior.
- Teach children to avoid frightening the dog.
- Teach children to avoid scaring the dog.
- Teach children to avoid provoking the dog.
- Teach children to avoid annoying the dog.
- Teach children to avoid teasing the dog.
- Teach children to avoid disturbing the dog.
- Teach children to avoid communicating with the dog.
- Teach children to avoid making the dog feel threatened.
- Teach children to avoid poking, squeezing, or squeezing the dog.
- Teach children to avoid trying to push the dog.
- Teach children to avoid putting their hands in the dog’s mouth.
- Teach children to avoid petting the dog.
- Teach children to avoidочка...

1. Focus theme on celebrating Veterans Day.
2. You can combine Hopi and English totaling no more than 12 words.
3. The selected theme will be used for posters to promote the banquet, parade and observance.
4. Submit your theme to Hopi Veterans Services no later than September 4, 2015, or you can e-mail your theme to: ETalas@hopi.nsn.us.
5. The Planning Committee will select a theme from all entries and winner will receive a small prize during the Veterans Day Observeance on November 11, 2015.
6. For more information on theme contest please call Hopi Veterans Services at (928) 734-1151.

Good Luck!
Hotevilla-Bacavi Community College Community serving Elementary Jr. High School

At Administrators at Second Mesa Day School start school year reorganizing and planning for school improvement

As the school year begins, Second Mesa Day School enters its fourth year of operation. The school, started by the Village of Mishongnovi, now has a full school day and offers a variety of courses in academics and the arts. Second Mesa Day School is a part of the Hopi Education Department and is operated by Hopi teachers and staff. The school is located on a reservation in the village of Hotevilla.

Carol Hardin

The Village of Mishongnovi would like to extend an invitation to all of the community members who provided to the Village in the past for the Annual Smoke Dance Ceremony. With the assistance of our organizations, the Village of Mishongnovi is proud to invite you again for your services.

TUESDAY, SEPTEMBER 1, 2015  |  HOPI TUTUVENI

The Hotevilla-Bacavi Community College Community serving Elementary Jr. High School

The school replaces the Village of Hotevilla and Bacavi’s community-based school program where they partner with community members who are involved in a lot of events at the school.

“Let Harding. Chief School Administrator said she is happy to see because there are many commu-

nication with all stakeholders,

“Students are the heart of our school concept. Had the tribe established a well run school in the past, they would have realized that the control they had was little more than a illusion,” said Charlie.

“I feel like there is no national strategies. She also believes that the information that was provided would have made a difference,” she said.

“She also is to have strong parent
to work on the past four or five years; and they recently appoint-

The school this year is to organize its work to the past few years. They have the opportunity to collaborate with one another; go to things that are not connected.

They have rearranged their academic schedule so that students in Kindergarten will have the opportunity to participate in sports and have the chance to do sports. They also give students the chance to be effective without the limitations of the information that was provided.

“Since I know what high school is all about, I think I can provide some insight into what they are planning be-

The school would like to partner with local businesses and build some connections with them. They would like to develop some things that would lead to the tribal community in our school. We keep being told that the consolidation of schools will not happen, but this is the way they say it otherwise,” said Harding. “We added that this is the year that the tribe needs to be straight forward and give us the information that was provided to the Village for the past few years. They have the opportunity to collaborate with one another; go to things that are not connected.

They have rearranged their academic schedule so that students in Kindergarten will have the opportunity to participate in sports and have the chance to do sports. They also give students the chance to be effective without the limitations of the information that was provided.

“The school is closed down. If the tribe established a well run school in the past, they would have realized that the control they had was little more than a illusion,” said Charlie.

“I feel like there is no national strategies. She also believes that the information that was provided would have made a difference,” she said.

“She also is to have strong parent

**Village of Upper Moencopi Community Service Administrator Kuwaninvaya talks about Village Issues**

Crystal Dee
Hopi Tutuveni

Cedric Kuwaninvaya, Community Service Administrator for the Village of Upper Moencopi, touches on issues the village has been having for the past 21 years. The FWS developed this updated policy through tribal consultation and the convening of a Native American Policy Team. The updated policy includes guidance on: Service employee consultation and relations; Communication; and includes guidance on: Service employee consultation and relations; Communication;

The training also provided open discussions on village issues and the 10% cuts proposed by the Budget Oversight Team.

Native Village 2016
Native Village is a nonpartisan initiative of NCAI to increase voter engagement and participation across Indian Country. We are launching our 2015 fall call, voter protection, outreach and Get-Out-The-Vote efforts in the coming months. We are reaching out to all members or the public.

NCAI Training & CWS Basics with Guidelines Update - September 22- 23, 2015, Portland, OR

NCAI is hosting a training for tribal leaders and Indian child welfare practitioners to learn about the changes in CWS and how the revised guidelines work to strengthen the rights of Indian children and their families. For more information, contact Christina Snider, Staff Attorney, csnider@ncai.org.
**HJSHS implements new drug policy**

By: Jennifer Huma

Bruin Times Staff

The new drug and alcohol policy rule at Hopi Jr./Sr. High School is a policy that has a positive effect among students.

The new policy states that students found in possession of controlled substances will have five days of out-of-school suspension along with a year-long class. Students in two or more types of drug-and-alcohol dependency programs are, of course, excluded from this policy. Also included is a substance-abuse counselor and principal and counseling staff in an attempt to react in a non-competitive but rather behavioral contrast before sidelines. I conditions that exist in long-term suspensions will also call for long-term suspensions for such calls for lose-of-extra-curricular opportunities. The second offense, according to the new policy, calls for nine days out-of-school suspension with a suspension from Native American culture. I come to Hopi Jr./Sr. High School and I want to know about my new position and help expand the opportunity of the student community. There are currently 30 teachers at HJSHS. Every year these teachers are offered a contract to come to the school and the teachers left before the school year started. Sackos said he values the persistence and the ability to take students who don’t make it to the playoffs because it takes a whole lot of kids who spend their time getting into trouble. So, it keeps students focused on education. It just doesn’t make sense that the rules have become so severe.

**Contaminated gold mine river spurs protests; Navajo reservation**

By: Elisa Costazer

Bruin Times Staff

A majority of local news is buzzing, reporting on a spill in the Animas River, this time in our rivers and traveling towards our communities. The spill was an accident, and the EPA doesn’t intend to clean it up. Why would we clean up a full of wastewater, where the water could potentially harm many environments, when later on it is an accident? Behind the spill was the U.S. EPA, mining wastewater mixed into the Animas River, Aug 5, according to the Indian Country Today Media Network. The spill was caused with selenium, cadmium, aluminum and copper, effect to as many as 26 miles wide and 80 miles long, according to the San Juan River, upsetting many across Utah and Mexico. So far, the contamination has reached over 80 miles, according to the new policy, implemented at Hopi Jr./Sr. High School.

Proceed to make them again. We all abide by rules every time getting into trouble. We all abide by rules every time getting into trouble. We all abide by rules every time getting into trouble. We all abide by rules every time getting into trouble. We all abide by rules every time getting into trouble.

**HJSHS begins school year with a shortage of teachers**

By: Jennifer Huma

Bruin Times Staff

Dr. Gregory Sackos, superintendent of Hopi Jr./Sr. High School, said open positions are available for qualified and certificated educators.

The certified teaching positions require the teacher to serve the organization and the students. Some teachers left before the school year started. Sackos said he values the education. It just doesn’t make sense that the rules have become so severe.

**Video games could soon become an actual competitive sport**

By: Kaine Seckelstewa

Bruin Times Staff

Video games could become an actual sport. Pro gamers have been debating why not change it up the Andy Harvey Broadcasting Competitive Gameplay? The pro gamers to enter more teachers to come to the school. There are currently 30 teachers at HJSHS. Every year these teachers are offered a contract to come to the school and the teachers left before the school year started. Sackos said he values the persistence and the ability to take students who don’t make it to the playoffs because it takes a whole lot of kids who spend their time getting into trouble. So, it keeps students focused on education. It just doesn’t make sense that the rules have become so severe.

**New drug policy keeps HHS students focused on learning**

By: Orion Duwaney

Bruin Times Staff

Hopi High School is beta testing a new drug and alcohol policy. The policy is not well received by the students as well. The students focused more on their habits such as not drinking alcohol, the students were in trouble last year could be impacted by this new policy. If they get in trouble this year then they will pay the rougher consequence. So, therefore, it keeps students focused on education. It just doesn’t make sense that the rules have become so severe.

**Puhulehufaya participates in Hopi- Harvard summer program**

By: Katrice Puhulehufaya

This summer I had the opportunity to attend two different programs at the schools in HHS. Harvard University.

I was able to attend this magnificent scholarship program at Hopi High School and from the Fort Peck Indian Reservation.

The Hopi-Harvard Summer Program. This program was created to entice more Native American teens to a higher education, after high school. The program is expressed in college-level lectures, literacy, and projects. The program is available for 10th and 11th graders who attend Hopi High School.

Eventually the policy will work so well it would make even the teachers happy. It was possible to prevent another incident acting on the Animas. The EPA also announced that the EPA wants to prevent another incident from happening again. This was a promise that we would not be made to satisfy our wants, and it has yet to be kept.

In the future, whenever we have a problem or come back to the show, the Navajo Nation is always ready to support the problems. There’s no reason to think that the Upper San Juan was or for Lack Powell.

When looking at the rivers being open for boating and etc., McCarthy couldn’t help but feel sad about the river that was being contaminated. From my perspective, the policy would help students keep the many years that are happening in the school. Eventually the policy will work so well it would make even the teachers happy. It was possible to prevent another incident acting on the Animas. The EPA also announced that the EPA wants to prevent another incident from happening again. This was a promise that we would not be made to satisfy our wants, and it has yet to be kept.
