Announcement of Proposed Permit for Public Comment on the Proposed Clean Air Act Minor NSR Permit in Indian Country

For Immediate Release

The United States Environmental Protection Agency (EPA) provides notice of, and requests public comment on, a proposed Clean Air Act (CAA) minor National Source Review (NSR) permit application for the Peabody Energy Corporation’s (Peabody) Peabody Generating Station (NGS) located in San Francisco, CA 94105-3901. Although the permit would authorize Peabody to construct and operate the NGS, including ancillary equipment, in order to treat coal with cement and lime, there would result in increased emissions of particulate matter. Air pollution emissions from the NGS would increase if the facility were allowed to construct and operate the NGS (as described in the proposed permit application).

Any person may submit written comments or written request for a public hearing on or before March 16, 2016. Requests for a public hearing and written comments must be received at least 30 days prior to the proposed permit decision.

Proposed permit decision: EPA will take public comments on this proposed permit decision and, if it deems appropriate, may prepare a Final Environmental Impact Statement. EPA will consider all written comments submitted during the public comment period in determining whether to issue the proposed permit and on what terms and conditions.

Peabody Generating Station (NGS) is located in San Francisco, CA 94105-3901.

Comments should be addressed to the Regional Administrator, EPA Region 9, 972-3943, via email at R9airpermits@epa.gov, or at the EPA Region 9 address above. If you have questions, or if you wish to obtain further information on this proposed permit decision, please call Louella Nahsonhoya, Managing Editor, P.O. Box 123, Kykotsmovi, Arizona 86039; phone number will not be published. Anonymous letters and letters written under assumed names will not be printed. School Board from Pages 16 to 17

The Action Item 116 “To allow the Department of Education to apply for the Hopi (Bureau of Indian Educa
tion) Department Grant and accept funds available for Hopi’s education,” was tabled last fall by the Board. Now that there seems to be movement on the part of what the TED grant is, the Hopi Schools Board wants to make sure they are abreast and keep in touch with the assistance and guidance of the Tribal Education Director. 

“The TED grant is for the Hopi Tribe to help put in the different possibilities of what services you can provide to your children,” said Sakiestewa. 

“If we are elected, we are going to continue to bring on the assistance and guidance of the Tribal Education Director. If it is a half of a grant of $600K or $500K, to ensure that we continue to contribute to the assistance of our children.”

Sakiestewa said she suggested having a pre-plan to come up with a work plan. The Action Item 116 “The Hopi Schools Board anonymous request for TED grant funds” was approved. 

“Since the grant was tabled in the last meeting, it was focused on two different areas: 1) Revise Education ordinance/law for one area and; 2) Tribal Control of Education.” Sakiestewa said that Sakiestewa wants to ensure that we come up with a work plan and that the Board of Education is in line with the assistance and guidance of the Tribal Education Director. 

“We are going to move forward with the assistance and guidance of the Tribal Education Director.” Sakiestewa said that Sakiestewa wants to ensure that we continue to contribute to the assistance of our children.”
