January 5 proclaimed as Hopi Bruin Day

At the invitation of the Hopi Tribe, the Hopi High School Boys and Girls Cross Country Teams, coaches, administrators and the Tribal Council met during a tribal council meeting on January 5th to proclaim January 5th as Hopi Bruin Day.

Chairman Herman Honanie welcomed and addressed the Teams by telling them, the Council was honored to have them in their presence and were proud of their accomplishments in running. The Hopi Boys Cross Country Team recently took 2nd place in the 27th consecutive Champion Title, setting a State and National record. This title may also be a world record, although it has not been confirmed. The Hopi Girls Cross County Team has also won several states of title and also continues to perform at the top. "We have tried here so that you could recognize your accomplishments that you have made on behalf of yourselves, your family, the Hopi people and the Hopi People High School, and Chairman Honanie. "This accomplishment will always be a part of your life form now on. The history you made will be shared with future generations.

Tribal Council members introduced themselves and all gave words of encouragement to them. A consistent reminder was to continue their education, strive for the best, enjoy your sports, keep running and not be in a hurry to start a family. "...you have plenty of time for that."

"Further your education and continue to run," said Upper Village of Mount Rose Representative Bruce Fredericks. "Education and sports go hand in hand. Hang on to the memory of setting a record of 27 consecutive years as State Cross Country Champion. Use it to the fullest in your endeavors. Go out and make Hopi Proud!" Some members of the Council were so humble and honored of the Team to address the Teams. The Boys and Girls were introduced themselves and seemed excited to visit the Council. Chairman Honanie read a Proclamation declaring January 5, 2017 as Hopi Bruin Day to recognize the 27 straight titles of Boys and Girls Cross Country Championships.

The Hopi Tribal Council approved and adopted the Hopi Tribe’s FY2017 General Operating Fund by a vote of 10 in favor, 2 opposed. The amount of $1,445,429.00 ($1,445,429 million) was the main source of revenue.

After the budget was passed, the Council heard a presentation by the Council that a payment had been made to Merrill Lynch. The presentation at Merrill Lynch was much larger amount than anticipated and was not paid. The presentation was made on a slide, but there is no additional information in the text.

The Hopi Tribal Council Meeting on January 10, 2016, passed two (one at a low rate and one at a high rate) of the Hopi Tribal Council’s Rate of Taxation for the fiscal year 2016 (2016 Rate of Taxation). The presentation to the Council was made by the Tribe’s Tax Attorney. The presentation stated that the current rate of taxation is in the form of a rate table. The rate table is used to calculate the amount of money that each person owes in taxes. The rate table is based on the value of the property that each person owns. The value of the property is determined by the Appraiser’s Office of the County Assessor.

Letters to the Editor should be submitted to: Hopi Tutuveni, P.O. Box 123, Mishongnovi, AZ 86059; email address: editorial@hopi.org.

The editorial board reserves the right to edit editorials and letters to the editor to preserve style, length and clarity. If significant editing in required, the Managing Editor will communicate with the writer prior to publication. Article submissions should not exceed 1500 words.

PUBLICATION CIRCULATION

The Hopi Tutuveni is published twice a month with a circulation of 3,400 copies through the entire Hopi Reservation. The paper is delivered to all residences. The following locations: Keams Canyon Store, Polacca Circle M, Hopi Health Care Center, Tusayan Post Office, Hopi Health Care Center, Tusayan Post Office, Hopi Health Care Center, Tusayan Post Office, Hopi Health Care Center, Tusayan Post Office, Hopi Health Care Center, Tusayan Post Office.
The drought monitoring system is designed to feed the local observations back into the community to improve local drought decisions and evolving conditions and impacts. The tribe would work within the institutional framework, “provided that regional drought information was generated and distributed in a manner that yielded insights about how soil moisture may change under drought conditions,” Ferguson said.

“Throughout the project, our processes were designed to allow for ongoing community dialogue about conditions and the implications for local agriculture, natural resources, and water management that those conditions may entail,” Ferguson said.

“This win has set new State and National Title records. The best of luck moving forward,” said Coach Baker. “We as a team, the Tribe, and the Hopi Reservation are extremely excited for the Hopi Bruin Day Season.”

The Hopi High School Boys Cross Country team and Coach Rick Baker throughout the 2015 and 2016 seasons were highlighted on the state, national, and worldwide level; and the Tribe would work within the institutional framework, “provided that regional drought information was generated and distributed in a manner that yielded insights about how soil moisture may change under drought conditions,” Ferguson said.

“The best of luck moving forward,” said Coach Baker. “We as a team, the Tribe, and the Hopi Reservation are extremely excited for the Hopi Bruin Day Season.”

Grijalva expresses disappointment with Obama administration’s choice not to protect Grand Canyon through a National Monument

In a speech, Mr. Grijalva expressed his disappointment with the Obama administration’s decision not to designate the Greater Grand Canyon Heritage Monument, a move that would have protected the region for future generations. Grijalva stated that the administration’s decision to not designate the monument is a missed opportunity to protect a place of cultural significance to the Navajo Nation and other indigenous communities.

Grijalva’s remarks come against the backdrop of ongoing discussions about the Grand Canyon’s future. The monument has been the subject of political debates, with some advocating for its protection and others opposing it due to its potential impact on mining and other industries.

Grijalva emphasized the importance of preserving the Grand Canyon for its cultural, ecological, and scientific values. He highlighted the region’s significance as a place of origin for the Navajo Nation and other indigenous communities, and the need to protect it from the potential threat of mining activities.

The monument’s designation would have been a significant step towards ensuring the protection of the Grand Canyon and its surrounding areas. Grijalva’s disappointment reflects the ongoing need for continued efforts to protect this vital natural and cultural resource for current and future generations.
December 27, 2016

To the Hopi People,

I, Emery Kyasyousie, am apologizing for my actions on October 12, 2016. I know I wasn’t making the right choices when this occurred and I hurt many people in the process.

I am aware that we need to uphold our culture values and make positive choices for we are role models for our youth. Thank you for your understanding and again I do apologize.

Sincerely,

Emery Kyasyousie

The Hopi Tribal Housing Authority (HTHA) and the Department of Housing and Urban Development (HUD VASH) are providing an opportunity to Hopi Veterans to participate in a housing and clinical program designed to serve the neediest, most vulnerable homeless Veterans and their immediate families.

VA will provide case management and eligibility screening services, while HTHA under direction from HUD will allocate permanent housing subsidies from their “Housing Choice” program.

The primary goal of this joint program is to prevent and end homelessness for Veterans and their families.

For details on this program please contact Janet Kevemooyona, Case Manager at (928) 737-9101 or the HTHA Department of Resident Services at (928) 737-2800.

I would like to apologize for my recent bad behavior as the night of October 29, 2016, when I was placed under arrest for intem- nating and resisting lawful arrest.

This incident has had a negative effect on the Hopi Community, my immediate family and whoever else was hurt by this situation.

I was extremely impressionable, immature and wildly selfish. Through my lack of maturity, poor decision making, and self-centeredness, I could have ended up creating a huge problem for the Community, which I deeply and sincerely apologize for my selfish actions. It was my carelessness and no consideration for others that I so appreciated my poor and bad decisions.

Again I deeply apologize for the problems we’ve caused and I hope I can put this matter behind me.

Sincerely,

Carl Masaquaptewa Jr.

**DANGEROUS CRIMES in the Code.**

**Traffic Arrest Warrant.**

Failure to Pay Traffic Arrest Warrants awarded by Act of the Court may be presented for arrest by the arresting officer.
In a book titled Mesas of Sorrows: A History of the Awat'ovi Massacre, historian and author, James P. Brooks, takes a look at the destruction of a large Hopi village by neighboring Hopis in the 1700's. According to Stewart Koyyayumptewa, Archivist at the Hopi Cultural Preservation Office, many readers and people, outside the Hopi Tribe, who have heard of or have read this book are not aware, or lack the process this author took to publish this book.

"In my opinion, the author is setting a precedence where forthcoming authors or researchers who wish to write about the Hopi people will not have to get permission from the Hopi Tribe prior to publishing. We need to make it known that this is not acceptable! This type of publishing and research is also happening at the Pueblo of Acquav" said Stewart Koyyayumptewa (http://www. sfreporter.com/santafe/article-11510-the-professor-and-the-pueblo.

Feedback is critical so that I may share with the author."
