**Hopi Small Animal Control Program implements pilot test to enforce Ord. 61**

By passage of Resolution H-047-16, on October 16, 2016, the Hopi Tribal Council adopted the Hopi Small Animal Control Ordinance No. 61. The Hopi Small Animal Control is a newly established program within the Hopi Tribe and the program’s mission is to promote the health, safety and general welfare of the people on the Hopi Reservation.

The primary responsibility and goal of the program is to decrease the small animal population, animal related diseases, animal bite attacks and to educate responsible pet ownership on the Hopi Reservation.

The Hopi Small Animal Control Program has been in existence since November 14, 2016 and is administered by the Department of Public Works (DPW). There are currently four staff members between the two programs: DPW Interim Director/Deputy Executive Director Dr. Ron Reid, DPW Small Animal Control Program Coordinator, Supervisory Animal Control Officer Wallace Mariano, Deputy Animal Control Officer Kaana Soulehyah, and DPW Interim Director/Deputy Executive Director Dr. Ron Reid.

This program within the Hopi Tribe and its mission is to provide community service and education, but also offers opportunities to introduce youth to careers in the environmental sciences. In addition to the work aspect, all partners involved contributed to a series of educational presentations that included topics covering: careers, higher education, archeology, springs and well being, botany (plants), cartography (map reading), timber/silvaculture (forestry), and cultural connectivity to the natural world.

Dr. Robbins was Hopi tribal member and professor Jeremy Garcia from First Mesa. Garcia is an Assistant Professor in the Teaching Learning and Sociocultural Studies Dept. where he teaches American Indian Studies.

Dr. Robbins said he is grateful for Garcia’s leadership and contributions to the University and appreciates his cultural connectivity to his people and community. Dr. Robbins and Garcia are the knot in the rope that connects the Hopi people to the outside world of education and agriculture, which former and current tribal leaders share as their desire for their people.

Dr. Robbins previously served in the field of health and medicine and has an interest in research initiatives, and health policy. Dr. Robbins and the team are interested in establishing relationships and partnerships with the Hopi Tribe with a focus on Education – “growing your own” and Health services.
Hopi Tribal Council Third Quarter Session
September 1, 2017 Agenda (Act 16, 2017 Amendment #4)

1. CALL TO ORDER
2. CERTIFICATION OF TRIBAL REPRESENTATIVE VOTES
3. INVOCATION/PLEDGE OF ALLEGIANCE
4. XVII. APPOINTMENTS
5. VI. CALENDAR PLANNING
6. VII. REPORTS
7. III. COMMISSIONS
8. V. ACTION ITEMS
9. X. COMMITTEE/SUB-COMMITTEE RECOMMENDATIONS
10. XI. BUSINESS
11. IX. CORRESPONDENCE
12. XII. SPECIAL ITEMS

1. Report – update on LCR/Water Rights litigation – Thayne Lowe, Vice Chairman, Land Commission - 9/17/17 @ 2:30 p.m. - APPROVED
2. Action Item 097-2017 – To approve a study of a suitable HPL site for the construction of First Mesa Elementary School – Author/Lamar Koeva, Tribal Council Representative, Village of Baciros - 9/17/17 @ 2:30 p.m. - APPROVED

28. Action Item 118-2017 – To approve a study of a suitable HPL site for the construction of First Mesa Elementary School – Author/Lamar Koeva, Tribal Council Representative, Village of Baciros - 9/17/17 @ 2:30 p.m. - APPROVED
The imminent loss of royalty payments from Peabody Coal Company is slowly causing one of the World's holiest religious sites to need water to keep it "breathing." The present implications of the loss of coal royalties are not included in the previous edition.

As children of ancestors who came to this special place of renewal, we realize that our waterways are now being vetted by the Executive Director's Office. Through networking efforts, I was put into contact with Frontier Applied Research, Inc. (FAS) and not included in the previous edition.

It will definitely be a challenge to totally replace the royalties we receive today, which has been approximately $12.5 million for the past two years. Howev-

through networking efforts, I was put into contact with Frontier Applied Research, Inc. (FAS) and not included in the previous edition.

It will definitely be a challenge to totally replace the royalties we receive today, which has been approximately $12.5 million for the past two years. However, in anticipation of the potential loss of revenue, I drafted a project proposal by SEL electric to determine how they are performing. If I can renegotiate these deals to make them more favorable for the Hopi, I will do so. Otherwise, we will have to prepare to lose this potential income to the Tribe.

In March of this year, I organized a meeting with the President of the Navajo Nation, the Consortium, several Hopi Economic Development Corporation, Northwestern Energy, and various tribal programs, brainstorm ideas on diversifying revenue streams to the Tribe. Several ideas were presented as a result of this meeting, including developing a joint venture project on Hopi lands. Although similar types of joint ventures have been previously developed, the potential closure of NGS could result in available cash to the Hopi for the development of new opportunities. Childhood Obesity Is A Major Public Health Problem

• Children with obesity are at higher risk for other chronic health conditions and diseases, such as asthma, sleep apnea, bone and joint problems, and type 2 diabetes. They also have more risk factors for heart disease, high blood pressure, and high cholesterol than their peers who are normal weight.

• Children with obesity are more likely to have obesity as an adult as well. This increases their risk of chronic health conditions and diseases, including eating and physical activity behaviors, genetic, metabolic, family and home environment, and other chronic health conditions and diseases, such as heart disease, high blood pressure, and high cholesterol, than young children. Obesity may be influenced by the following:

  • too much time spent being inactive
  • lack of sleep
  • lack of places to get the community to get physical activity
  • easy access to inexpensive, high caloric foods and sugar beverages
  • places to eat that are affordable, unhealthy foods

There are ways we can all help prevent obesity and support healthy growth in children. To help ensure that childhood obesity continues to be a focus, the following are some key strategies:

1) Be aware of your own growth. Learn how obesity is defined, how it can result in serious health issues, and how obesity can affect your child's growth and development.

2) Be aware of your child's growth. Learn how obesity is defined, how it can result in serious health issues, and how obesity can affect your child's growth and development.

3) Be aware of your child's growth. Learn how obesity is defined, how it can result in serious health issues, and how obesity can affect your child's growth and development.

The Hopi Tribe has interests in the development and management of its oil, gas, and coal resources to provide economic benefits to the Tribe.

The Hopi Tribe is a sovereign nation with rights to own and control its natural resources, including oil, gas, and coal. The Tribe has the authority to regulate the development and extraction of these resources on its lands.

The Hopi Tribe has a program to manage its oil and gas resources, called the Oil and Gas Program. The program is designed to ensure that the Tribe benefits from the development and extraction of these resources.

The Oil and Gas Program includes a royalty program, which is designed to provide revenue to the Tribe. The royalty program is based on a percentage of the value of the oil and gas produced from the Tribe's lands.

The Hopi Tribe has also developed a coal program, which is designed to provide revenue to the Tribe from the sale of coal extracted from its lands. The coal program includes a royalty program, which is designed to provide revenue to the Tribe.

The Hopi Tribe is committed to managing its natural resources in a way that maximizes economic benefits to the Tribe. The Hopi Tribe is also committed to protecting the environment and ensuring that the development and extraction of its natural resources is done in a responsible manner.

The Hopi Tribe is dedicated to developing and improving the methods used to develop and extract its natural resources. The Tribe is committed to using the latest technologies and methods to ensure that the development and extraction of its resources is done in a safe and environmentally sound manner.

The Hopi Tribe is committed to sharing information about the development and extraction of its natural resources with the public. The Tribe is committed to providing information about its natural resources, including information about the development and extraction of its oil, gas, and coal resources.

The Hopi Tribe is dedicated to ensuring that the development and extraction of its natural resources is done in a way that is fair and just for all parties involved. The Tribe is committed to working with all parties, including the public, to ensure that the development and extraction of its natural resources is done in a way that is fair and just for all parties involved.

The Hopi Tribe is committed to ensuring that the development and extraction of its natural resources is done in a way that is sustainable for future generations. The Tribe is committed to ensuring that the development and extraction of its natural resources is done in a way that is sustainable for future generations.

The Hopi Tribe is dedicated to ensuring that the development and extraction of its natural resources is done in a way that is consistent with Hopi cultural values. The Tribe is committed to ensuring that the development and extraction of its natural resources is done in a way that is consistent with Hopi cultural values.

2017 Veterans Outreach Day
Eugene Talas
Hopi Veterans Services

Veterans, families, and the general public are invited to attend this year’s Veterans Outreach Day (on November 7, from 10am to 3pm) at the Hopi Veterans Memorial Center. The theme for this year’s event is, “Community Celebrating and Honoring Veterans’ Military Service.” The goal of the event is to connect Veterans and families with a variety of benefits and services provided by local Hopi programs, as well as federal, state and county agencies who will also be in attendance. Keynote speaker is Lorraine “HoMana” Pawiki, Southwest Regional Specialist, VA Office of Tribal Government Relations, who will speak on her role to assist Native American Veterans nationwide.

The Arizona Department of Veterans’ Services will also showcase their web camera ability to conduct VA compensation and pension claims, and assist Veterans to file a claim. Other agencies such as education, employment, and housing, legal service have been invited to help Veterans at their informational booths. There is still plenty of time for local programs and agencies to reserve an informational booth by October 20, 2017.

As a special treat, throughout the event, free door prizes will be announced, and participants will be provided a healthy meal. The first 150 Veterans who register will also receive an incentive for attending the event.

The planning committee is seeking volunteers to assist with this year’s event by helping serve the meals, donating desserts or just to lend a hand. For those wanting to help with serving the meals please bring a copy of your Food Handlers Card. For more information or if you want to volunteer during the event you can contact Hopi Veterans Services at (928) 734-3661 or 3462. SAVE THE DATE and join us at the Veterans Outreach Day on November 7, to honor all our brave men and women on Veterans who have served across the globe as Soldiers, Marines, Sailors, Airmen and Coast Guardsmen.

Enrolled individual may bring one (1) female guest 12 years and older.

For more information, please contact the H.O.P.I. Cancer Support Services office at 734-1150

911 Addressing Community Survey
The Highway Safety Committee hopes to reach many people on Hopi through this survey for a 911 Addressing System. Information from this survey will be used to determine the need for a 911 addressing system in the Hopi community. A 911 addressing system will assign road names, street signs, and addresses over a geographical area to ensure the quickest emergency response time to community members.

1. What community do you live in? __________________
2. Are you a Hopi tribal member? Yes____ No____
3. Would you support a 911 addressing project in your community to help first responders (EMS, Fire, Police, etc.) respond quicker to emergencies? Yes____ No____ Don’t know____
4. If Hopi communities had a 911 addressing system in place, would it lead to quicker response times for EMS, Police, Fire, etc. to your house? Yes____ No____ Don’t know____
5. Do you think you have delayed emergency response time due to a lack of an address on your home? Yes____ No____ Don’t know____
6. Do you think you have delayed emergency response time due to a lack of an addressing system in your community (numbers on homes, street signs, etc.)? Yes____ No____ Don’t know____
7. If Hopi communities had a 911 addressing system would more lives be saved? Yes____ No____ Don’t know____
8. Have you ever had an experience where first responders were delayed in responding? Yes____ No____ Don’t know____

Surveys may be mailed to:
Hopi Department of Transportation
PO Box 123, Kykotsmovi, AZ 86043
or complete online at:

Thank you for your help!!!
As part of becoming fully functional, the program has launched a Pilot Test on full Ordinance enforcement No. 61 and has established procedure policies. From October 1, 2017 through December 31, 2017, Officers will be issuing citations in accordance with Ordinance No. 61 and established policies. No fines will be issued to the residents of the Tribal area, except if a small animal control officer is denied access or is unable to obtain access to any premises, vehicle, or enclosed area, and if the situation is critical, exigent circumstances shall exist and the owner or occupant is unavailable, the Animal Control Officer or other enforcement officer may enter the premises, vehicle or enclosed area, for the purpose of caring for domestic animals impounded under this Ordinance. Small Animal Control Program

1.00 PURPOSE

The purpose of this Ordinance is to:

1.2 PROMOTE the health, safety and general welfare of all people, it’s Victorians and visitors to the Hopi Re- servation,
1.3 Work within the framework of Tribal government and, in concert with the Villages, to administer the activities of the Small Animal Control Program established as a program of the Hopi Tribe and/or administer the activities of the Hopi Tribe’s Office of Hopi Resource Enforcement and Hopi Law Enforcement Services, shall issue citations for violations of this Ordinance and its fees/fines. This board shall include a representative appointed by the director of the following agencies:

1.2 HOPI SMALL ANIMAL CONTROL PROGRAM

(b) The Animal Control Officer(s), as well as enforce- ment officers of Hopi Health Service, shall issue citations for violations of the provisions of this Ordinance.

1.3 STAY ANIMAL means any animal that does not have an owner.

1.4 VACCINATION means the inoculation of an ani- mal with an approved vaccine.

1.5 TALIUS means the viral disease that affects the central nervous system of warm-blooded animals.

1.6 PREMISES means a building or the land around a building whether fenced or not.

1.7 PUBLIC PLACE means a place or building open to the public whether fenced or not.

1.8 RABIES means the viral disease that affects the nervous system of animals, and the condition resulting from infection by the rabies virus. Rabies is almost always fatal.

1.9 SMALL ANIMALS means any animal that is not a domesticated livestock, nor feral animals and domestic livestock.

1.10 VACCINE means a substance, usually prepared from a microorganism in which the antigenic properties of the microorganism have been altered in such a way that, after injection into a living organism, it will produce an immunologic response without producing disease.

1.11 DOMESTIC ANIMAL means any animal living with its owner. The definition includes but is not limited to, chickens, ducks, turkey, and geese.

1.12 ANIMAL CONTROL OFFICER means any person employed by the Small Animal Control Program to enforce this Ordinance and/or administer the duties and responsibilities of the Small Animal Control Program established as a program of the Hopi Tribe and/or the Office of Public Works. The Animal Control Advisory Board shall be convened by the representative from the Department of Public Health and the Advisory Board shall meet at least annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.00 SCOPE

2.2 The Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.3 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.4 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.5 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.6 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.7 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.8 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.9 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.10 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.11 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.12 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.13 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.14 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.15 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.16 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.17 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.18 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.19 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.20 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.21 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.

2.22 The purpose for which the Animal Control Advisory Board shall be constituted annually from its own membership. The Animal Control Advisory Board shall meet when necessary but at least annually from 2017.
ANIMALS AND PERMITTED WILDLIFE

1.01 DOMESTIC ANIMALS

1.19 ANIMAL CONTROL OFFICER

(b) Impounded animals that are sick or injured may be euthanized or adopted. The procedure for adoption shall be approved by the Animal Control Advisory Board.

1.20 ANIMAL CONTROL OFFICER

(b) Impounded animals that are sick or injured may be euthanized or adopted. The procedure for adoption shall be approved by the Animal Control Advisory Board.

1.21 ANIMAL CONTROL OFFICER

(b) Impounded animals that are sick or injured may be euthanized or adopted. The procedure for adoption shall be approved by the Animal Control Advisory Board.
Along with these presentations, a for-
ed service activity was introduced to the youth called “Hopi Youth Bio Blitz Challenge.” This activity required youth to download the Kaibab Forest “I Natu-
ralist” app onto their smart phones and enabled them to capture and submit pho-
tos of any insects, plants, wildlife, birds or other that they saw out in the natural setting. A competition was generated and teams were formed. The youth real-
ly liked and excelled in this activity and showed a genuine interest in utilizing modern technology to interact with the natural environment around them.

The forest service will document these photos and utilize to create a database of gen-
eral public photos and track various wildlife species within the forest setting. There was another unique experience provided to the youth in which a native from the country of Indonesia participat-
ed in the project and she shared her education and conservation efforts with the youth. This young lady is a Conser-
vation Educator that promotes Human Health and Environmental Health in her native homeland. Through their project, Alalin Salat Lestari (ASRI) based in Sukadana, West Kalimantan, Indonesia, showed a genuine interest in utilizing modern technology to interact with the natural environment around them.

The youth were provided incentives from the Kaibab National Forest, Grand Canyon Trust and the Grand Canyon Na-

tional Park. The youth really enjoyed Ms. Rah-

culture and continued conserva-

tion efforts at Gunung Palung National
