Hopi Cancer Assistance Fund

The Hopi Cancer Assistance Fund was conceived by a former client who had cancer and who was experiencing financial hardship in meeting treatment needs. Part of the HCAF Mission is to have compassion and respect for all people afflicted with cancer. The vision then was to be able to provide some monetary assistance to help cancer patients with gas, food and lodging for appointments at distant locations off the reservation. In this way we can be apart of the solution to improve lives while instilling a better community understanding about this disease.
