**I. STATEMENT OF PURPOSE**

To provide a general welfare program that will provide financial support awards to enrolled individual tribal members over 18 years of age and families directly affected by the COVID-19 public health emergency. Assistance provided under this program shall not be considered compensation for services or earned income.

In establishing this program, the Hopi Tribe recognizes that many of the COVID-19 response efforts have a direct impact on individual members and families of the Tribe, including, without limitation: social distancing requirements; reduced employment opportunities; reduced business income opportunities; increased cost of food and supplies; increased household costs and utilities; additional education and child care costs; burdens due to business and government service closures; the additional reliance on technology, phone and internet services; and the need for additional cleaning supplies and activities to meet CDC and other recommended guidelines. The Tribe further recognizes the direct impact and hardship on tribal culture, traditions and ceremonial gatherings.

This program is intended to promote the general welfare of the Tribe and its members by alleviating hardships endured due to COVID-19 through providing, without limitation:

- (1) Financial stabilization for tribal members and tribal families who are impacted by COVID-19 and have experienced or continue to experience a loss of income and/or additional household expenses due to COVID-19;
- (2) Food security during the COVID-19 pandemic;
- (3) Continued education during the COVID-19 pandemic;
- (4) Assistance with childcare services that are necessary due to COVID-19; and
- (5) Assistance with medical and health services that are necessary due to COVID-19; and
- (6) Assistance with unreimbursed, reasonable and necessary personal, living, family and other unplanned expenses incurred due to the COVID-19 disaster and public health emergency situation.
