Hopi High School Hosts Inaugural Rick Baker Cross Country Invite on August 29, 2023

“Momentous images are worth thousands in words”

By: Romalita Laban, Managing Editor HT

Keams Canyon, Ariz. - August 29, 2023 The stands were full and the music was loud and upbeat which made for complimentary additives for the Inaugural Rick Baker Cross Country Invite, which took place under a sunny “Bruin” blue sky at the Hopi Jr./Sr. Bruins Stadium.

In true fashion, The True Legend Coach Rick Baker - Hopi Bruins Cross Country Coach was all over the race path from the starting line, to midpoint and at the end to congratulate his team members. Baker, an inductee into the National Federation of State High Schools Hall of Fame as of July 1, 2021, for outstanding leadership and coaching skills that led to national record of 27 consecutive state cross country championships for Hopi High School athletes from 1990 - 2017,

was also acknowledged recently by the Hopi Jr./Sr. High School Board, by their re-naming of the Hopi Cross Country Invitational to The Rick Baker Cross Country Invite.

And in true fashion the Hopi Bruin Cross Country Runner fans could also be seen following their harriers and yelling the true Hopi XC cheer of “Nahongvita” which translates to inspiring one to “dig deep” “be strong” and “find that inner strength” as the runners are encouraged to keep going and to finish the race strong.

Images can express many words, emotions and are being shared for this point in Hopi High School Cross Country history, when runners and fans were reminded about the supportive and encouraging work Rick Baker committed to all the Hopi Bruin XC runners since 1990 when he began his career as Coach Baker.

Hopi Tribe Department of Health and Human Services Covid-19 Emergency Response -Re-publication

Submitted by: Joyce Hamilton, Director - DHHS

Kykotsmovi, Ariz. - June 2023 marks one year for the Hopi Tribe Department of Health and Human Services (DHHS) for occupancy of office space at the newly developed Turquoise Well Government complex. You may be asking yourself; “Where is the Turquoise Well government complex?” “What is the Turquoise Well Government complex?”

The Turquoise Well Government complex is the newly developed area on Hopi lands for Hopi Tribal offices which is located 15 miles northeast of the Hopi Cultural Center. The complex was developed in response to the COVID-19 Public Health Emergency for Tribal programs. DHHS Administration, Public Health Compliance and the Small Animal Control program have been working at the Turquoise Well complex since June 2022. In January 2023 the staff had to resort to teleworking due to mechanical failure of the generator which provides electrical power for day-to-day operations. DHHS Administration, Public Health Compliance and the Small Animal Control, are some of the programs affected however the staff of the programs continue to provide services, such as the recent Food Handler’s class held in the village of Bacavi and the tick prevention event. The DHHS Department Director can be reached via e-mail at Jhamilton@hopi.nsn.us or (928)207-6481.

Hopi Executive Order No. 002-2022 issued on March 3, 2022 continues to remain in place until such time the Hopi Tribal Leadership determines to lift the Executive Order. Data from the Hopi Health Care Center and surrounding health care facilities showcase a significant reduction in positive COVID-19 cases and data continues to be monitored and assessed.

Public Health Authority, Dr. Darren Vicenti, has been working in consultation with Tribal Leadership and local health centers in regards to COVID-19 cases and has determined that the number of positive cases remain low and will be defining next steps for data sharing.

Various sources of literature predicted that the COVID-19 virus will become endemic over time; what does that mean? An Endemic Disease means that the virus will continue to be present in a population or region with a relatively low spread OR there may be periods when it doesn’t affect people at all.

The straightforward message to the community is to seek medical advice from your local medical provider for proper care and guidance to avoid further spread to family members if you feel symptoms. The recommended public health practice is to continue with proper hand hygiene, staying home when feeling ill and most importantly get vaccinated.

Hopi Executive Order No. 002-2022 language indicates the following:

1. It is recommended that everyone ages 5-years and older get a complete serious of the COVID-19 vaccine (mandatory for tribal government employees).
2. Face covering use shall be required inside all public facilities and buildings, and certain common areas. (lifted Hopi Executive Order No. 001-2023)
3. The Hopi Law Enforcement Services and health professionals, including community workers will coordinate with village leaders and village security officers to allow for welfare checks and other health-related contacts.

The Hopi Community Health Services (CHR) program continues to make available COVID-19 home test kits. Personal Protective Equipment (PPE) such as hand sanitizers, face masks and sanitary wipes are limited and will be issued if supplies are available. Contact the Hopi CHR program at (928)737-6342 if you have questions.

PHOENIX, Ariz. – August 31, 2023 Vanessa Rene Dundon (a.k.a. Sioux Z, a.k.a. Suzie Q), 38, of Indian Wells, Arizona, was sentenced last week by United States District Judge Diane J. Hume-tewa to three years in prison, followed by three years of supervised release. As a condition of her supervised release, Dundon cannot travel to, or be on, the Hopi Reservation. Dundon pleaded guilty to Possession with Intent to Distribute Methamphetamine.

“Drug trafficking causes particular harm for tribal communities,” said United States Attorney Gary Restaino. “The exclusion of defendant from the Hopi Reservation is an additional tool to prevent future harm, and an extra measure of

protection for Hopi villages.”

Dundon was stopped in her vehicle on the Hopi Reservation in April 2021, March 2022, and April 2022. On each occasion, she had controlled substances in her vehicle. At the change of plea hearing, Dundon admitted that on April 17, 2022, she possessed 58.4 grams of pure methamphetamine and that she intended to deliver it to other individuals in exchange for payment.

The Federal Bureau of Investigation, Phoenix Field Office, and Hopi Law Enforcement Services conducted the investigation in this case. The United States Attorney’s Office, District of Arizona, Phoenix, handled the prosecution.

Native Healing Coalition partners with Swarthmore and Haverford colleges to digitize records from Quaker-operated Indian boarding schools

By: Brad Angerman (Tlingit), Communications Director - National Native American Boarding School Healing Coalition

Minneapolis, MN— August 23, 2023 The National Native American Boarding School Healing Coalition (NABS) will digitize 20,000 archival pages related to Quaker-operated Indian boarding schools. NABS was awarded a grant of \$124,311 from the National Historical Publications and Records Commission to work with Friends Historical Library of Swarthmore College and Quaker & Special Collections at Haverford College.

Documents related to Quaker-operated Indian boarding schools have been largely understudied, as they exist in scattered collections with limited access. NABS is making these important histories readily available to scholars and non-specialists alike by housing the digital records in a public database.

“We are grateful to Swarthmore and Haverford for their willingness to partner with us as we try to better understand this history,” said Stephen R. Curley (Diné), Director of Digital Archives for NABS. “This partnership is unique and necessary, and we hope it creates more opportunities in the future. It is going to take all communities working together to reveal the truth about Indian boarding schools.”

In fall 2023, NABS, Swarthmore, and Haverford will scan 20,000 pages of enrollment papers, financial information, correspondence, administrative records, and photographs. The records from Swarthmore and Haverford, ranging from 1852-1945, relate to at least nine Quaker-operated Indian boarding schools that were

located in Indiana, Kansas, Nebraska, New York, Ohio, Oklahoma, and Pennsylvania.

Following the scanning process, a community information session will be held with Tribal communities to discuss the project findings. The project will also include the production of a video that shares oral histories from boarding school survivors, their families, and others.

In spring 2024, the 20,000 digitized records will be made publicly available on a database called the National Indian Boarding School Digital Archive (NIBSDA), which NABS will launch later this year.

“I hope this partnership opens the door for more discussion and understanding about religious institutions’ role in the operation of Indian boarding schools,” said Celia Caust-Ellenbogen, Associate Curator for Friends Historical Library of Swarthmore College. “These records can inform us about the conditions in which Native students lived, how Quaker institutions were financed through the federal government, and reveal the motivations behind U.S. assimilation policy design.”

“The digitization of these collections will yield new research and narratives about the underexamined history of Quaker-operated Indian boarding schools,” said Sarah Horowitz, Curator of Rare Books & Manuscripts and Head of Quaker & Special Collections at Haverford College. “These records reveal storied experiences and information that is too often absent from the public record, but that are increasingly sought by historians of Native American and American history.”
