--	---	--

I. STATEMENT OF PURPOSE

To provide a general welfare program that will provide financial support awards to enrolled individual tribal members over 18 years of age and families directly affected by the COVID-19 public health emergency and its after-effects. Assistance provided under this program shall not be considered compensation for services or earned income.

In continuing the program that was established on September 16, 2020, the Hopi Tribe recognizes that individual members and families of the Tribe were disproportionately impacted by the pandemic, including, without limitation: social distancing requirements; reduced employment opportunities; reduced business income opportunities; increased cost of food and supplies; increased household costs and utilities; additional education and child care costs; burdens due to business and government service closures; the additional reliance on technology, phone and internet services; and the need for additional cleaning supplies and activities to meet CDC and other recommended guidelines. The Tribe further recognizes the direct impact and hardship on tribal culture, traditions and ceremonial gatherings.

This program is intended to promote the general welfare of the Tribe and its members by alleviating hardships endured due to COVID-19 through providing, without limitation:

- (1) Financial stabilization for tribal members and tribal families who are impacted by COVID-19 and have experienced or continue to experience a loss of income and/or additional household expenses due to COVID-19;
- (2) Food security;
- (3) Continued education;
- (4) Assistance with childcare services;
- (5) Assistance with medical and health services; and
- (6) Assistance with unreimbursed, reasonable and necessary personal, living, family and other unplanned expenses incurred due to the COVID-19 disaster and its ongoing effects on the community.
